B+G CYLINDER PLANTER

B+G CYLINDER PLANTER

Timeless vertical planter ideal for trees and structured plantings. Clean lines, multiple sizes and durable finishes suit contemporary or traditional landscapes.

Description

Designed for commercial use, each planter is constructed to withstand the demands of high-traffic public spaces. They offer a durable and visually striking solution for integrating structure, scale, and biophilia into the public realm.

The Cylinder Planter delivers a timeless vertical profile that complements both contemporary and traditional settings. Its clean lines and balanced proportions make it suitable for trees, large shrubs, or bold architectural plantings. Ideal for flanking pathways, entries, or creating rhythm in linear landscapes, the Cylinder Planter provides structure.

Available in 5 sizes ranging from 24” to 60” allowing for significant tree planting or rhythmic linear installations.

The collection is available in the full range of Botton + Gardiner powder coat colours, allowing seamless coordination. While there is no base drainage, an optional irrigation system can be integrated to support long-term planting health in urban settings. Designed for durability and visual cohesion, these planters deliver lasting performance with minimal maintenance.

How to Specify

Select Size

Choose a color from the b+g powder coat range. Planters will be finished to match the selected color.

Material

Fiberglass

Dimensions

Available in:
