B+G AVENUE CURVED BENCH

Modular seating breaks up linear spaces. Battens in hardwood or Duraslat™ colors. Tapered steel frame in powder-coat or galvanized finishes.

Description

Rectangular battens and a tapered steel frame combine to deliver a curved bench design that takes its cues from 20th century industrial design. The modularity allows for snaking curve, full ring or shallow bend configurations to be created to break up linear spaces. It is ideal for seating around trees, along curved garden beds and walls. The functional feel and light appearance of the Avenue curved bench complements and sits within most public spaces. Finishes include hardwood or Duraslat™ colors and powder-coat finishes or a galvanized finish.

How to Specify

Select your arc length
Specify your radius
Select your batten finish
Select your frame finish
Select your fixing type

Sustainability

Certified Hardwood
Australian Eucalyptus hardwood is sourced from sustainable forests certified by the Program for the Endorsement of Forest Certification (PEFC), the world's largest forestry certification system.

Material Alternatives
We offer sustainable alternatives to hardwood, such as Duraslat™; a mineral-based composite material that contains no Volatile Organic Compounds (VOCs) and is engineered using up to 46% natural filler that is based on a renewable mineral.

Recycled Materials
We locally source our steel. It means we know it uses recycled content and is 100% recyclable.

Low Pollutants
Our powder-coating process doesn't emit VOCs and has Environmental Product Declarations (EPDs) that enable projects to qualify for LEED credits.

Dimensions	Hardwood 79″ arc x 17″D x 18″H (2000mm arc x 440mmD x 460mmH) Duraslat™ 79″ arc x 17″D x 18″H (2000mm arc x 440mmD x 455mmH) Standard arc length: 79″ (2000mm) Standard radius: 79″ (2000mm) Seat depth: 17″ (440mm) Seat height: 18″ (455-460mm)
Batten Type	Hardwood Duraslat™
Frame	Powder-coated or galvanized steel
Weight	Hardwood 124lbs (56kg) Duraslat™ 107lbs (49kg)
Made In	USA
Lead Time	6-8 weeks
Assembly & Delivery	Shipped fully assembled on pallets.
Fixing Detail	Surface or sub-surface fixed by others. Anchors not included. Shims available for sub-surface fixing on request.

B+G AVENUE CURVED BENCH

Care Instructions	Hardwood Cleaning Remove any loose surface deposits with a soft bristled brush and wipe down with fresh water and a non-abrasive cloth. Oiling Oiling of timber will postpone natural greying, repel moisture, improve mould resistance, help maintain a smooth surface texture and enhance the grain and colour. To maintain, lightly sand rough areas of timber and brush on one coat of timber decking oil every 6 months or as required. Duraslat™ Cleaning Clean with mild soap and water and use a soft brush to remove any dirt build-up. Powder-Coat Cleaning Carefully remove any loose surface deposits with a wet sponge or soft bristled brush. Use a soft (non-abrasive) cloth or brush and a diluted solution of mild detergent and warm water. Ensure surfaces are thoroughly rinsed with clean fresh water after cleaning to remove all residues. Never use thinners, abrasive cleaning agents, alcohol-based, acid or alkali cleaning agents.
Warranty	5-year warranty. View the warranty for more details.
Additional Comments	Hardwood is treated with a UV-resistant oil finish in a light or dark tone.
