B+G URBAN CURVED BENCH

Timeless curved bench design. Batten top in 2 hardwood or 4 Duraslat™ colors supported by an elegant cast aluminum frame in 17 powder-coat finishes.

Description	Referencing Paris's famous wrought ironwork, curved cast aluminum framing is complemented by muscular hardwood or Duraslat™ surfaces to offer a timeless Urban curved seat. The modularity allows for snaking curve, full ring or shallow bend configurations to be created to break up linear spaces. It is ideal for seating around trees, along curved garden beds and walls. Finishes include 2 Australian Eucalyptus hardwood or 4 Duraslat™ colors and 17 powder-coat finishes or a natural aluminum finish. Urban is close to our heart; a classic, elegant, and highly functional collection that works in almost any public space.
Made In	USA

Sustainability	Certified Hardwood Australian Eucalyptus hardwood is sourced from sustainable forests certified by the Program for the Endorsement of Forest Certification (PEFC), the world's largest forestry certification system. Material Alternatives We offer sustainable alternatives to hardwood, such as Duraslat™; a mineral-based composite material that contains no Volatile Organic Compounds (VOCs) and is engineered using up to 46% natural filler that is based on a renewable mineral. Recycled Materials We locally source our steel. It means we know it uses recycled content and is 100% recyclable. Low Pollutants Our powder-coating process doesn't emit VOCs and has Environmental Product Declarations (EPDs) that enable projects to qualify for LEED credits.
Warranty	5-year warranty. View the warranty for more details.

B+G URBAN CURVED BENCH

Lead Time	6-8 weeks
Assembly & Delivery	Shipped fully assembled on pallets.
Fixing Detail	Post fixed by others - surface fixed. Anchors not included.
How to Specify	Select your arc length Specify your radius Select your batten finish Select your frame finish Select your fixing type
Care Instructions	Hardwood Cleaning Remove any loose surface deposits with a soft bristled brush and wipe down with fresh water and a non-abrasive cloth. Oiling Oiling of timber will postpone natural greying, repel moisture, improve mould resistance, help maintain a smooth surface texture and enhance the grain and colour. To maintain, lightly sand rough areas of timber and brush on one coat of timber decking oil every 6 months or as required. Duraslat™ Cleaning Clean with mild soap and water and use a soft brush to remove any dirt build-up. Powder-Coat Cleaning Carefully remove any loose surface deposits with a wet sponge or soft bristled brush. Use a soft (non-abrasive) cloth or brush and a diluted solution of mild detergent and warm water. Ensure surfaces are thoroughly rinsed with clean fresh water after cleaning to remove all residues. Never use thinners, abrasive cleaning agents, alcohol-based, acid or alkali cleaning agents.
Additional Comments	Hardwood is treated with a UV-resistant oil finish in a light or dark tone.
